

A close-up photograph of a scientist's hands wearing blue gloves. The scientist is using a pipette to transfer a clear liquid from a small vial into another container. In the background, a laboratory setting is visible with a microscope and other glassware.

# Nature Resuscitate Clinic

**The Journey is Not to Surrender**

# Nature Resuscitate Clinic

Nature Resuscitate Clinic was established in 2021. It is based in the rural community of Sibambayani in Bushbuckridge, Mpumalanga.

Nature Resuscitate Clinic focuses on supporting disadvantaged people in the local community of Sibambayani with the aim to improve and provide excellent health service that the community is lacking.

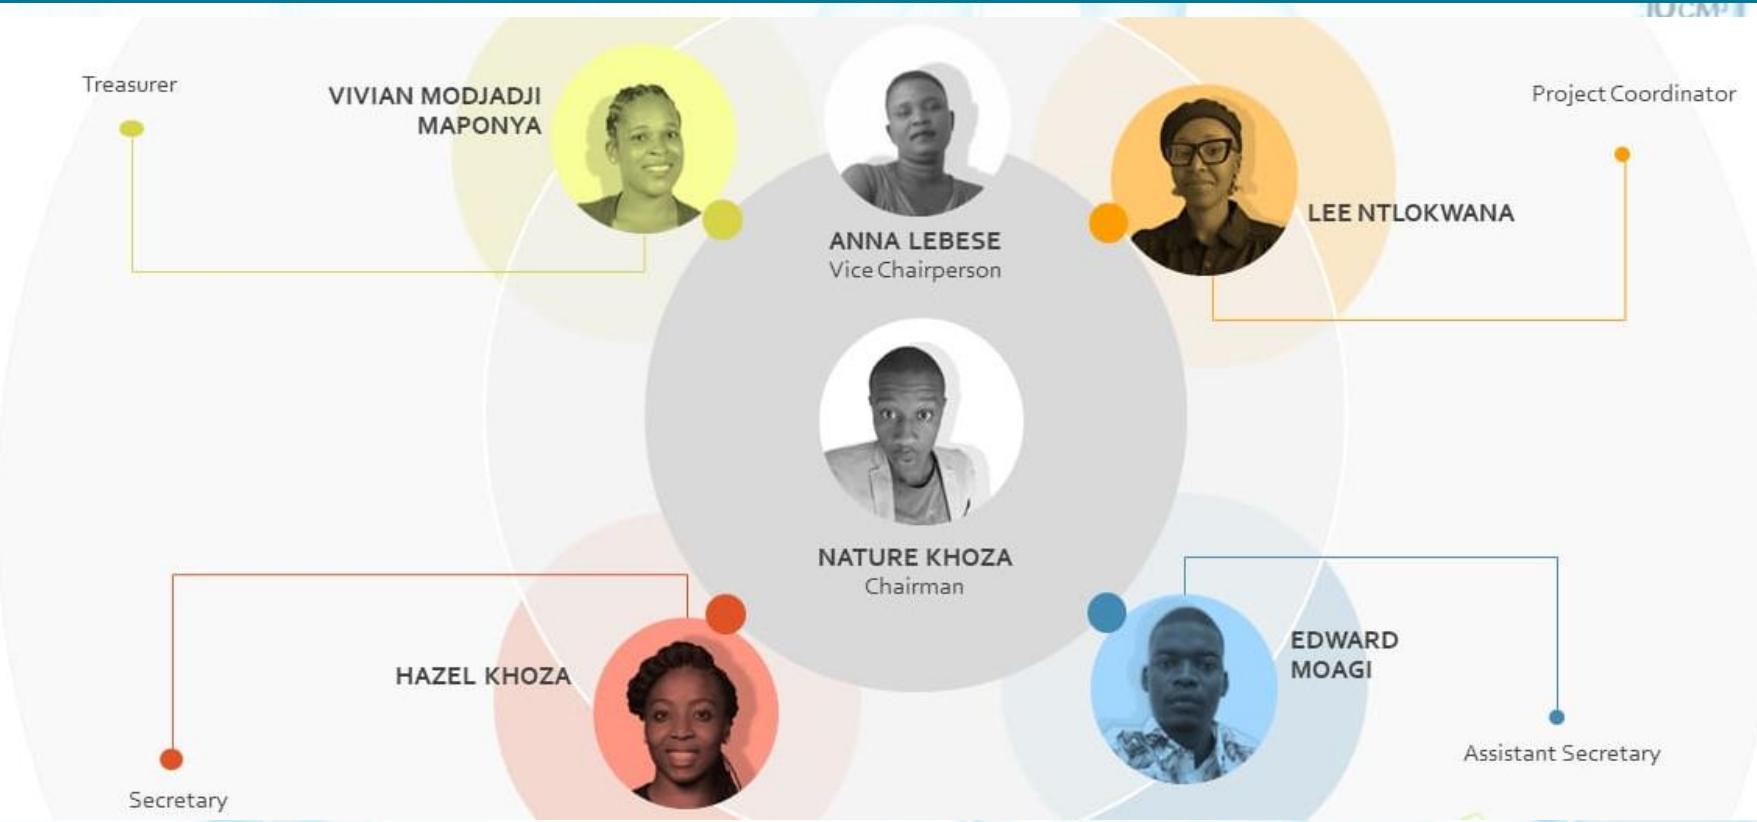

The Clinic will offer the most recent comprehensive and recognised health care treatment. It is our hope to restore good health and take responsibility for each resident for them to receive the treatment they need.

## Our Mission and Vision

Our vision is to be the health Consultancy Clinic of Choice in the rural community, a Leader in Quality Service and to ensure effective access to Healthcare and safety.

Our mission is to assess everyone's needs holistically in providing the professional health service and advice in Sexual and Reproductive Health and Rights (SRHR) which they deserve in making their choices of health and safety as easy and seamless as possible.
